PROFESSIONAL EXPERIENCE

EdPlus

05/2026 - Present

AI Software Engineer

Phoenix, AZ

- Own the architecture, roadmap and delivery of a 12-agent AI analytics platform on AWS Bedrock and Step Functions that turns any structured dataset into cited, verified answers; TypeScript, NestJS, Nuxt.
- Built a plain-English chart experience in Nuxt where readers stack, sort, filter, take top-N and undo directly, backed by in-process DuckDB that held latency flat as rows grew 200x.
- Shipped a 14-page Nuxt 4 front end over a NestJS API of 11 modules and 70 routes, all compiled against one shared TypeScript contract.
- Cut wrong answers 85% on 164 published benchmark figures by reading every answer back in plain words and verifying it against the question before display.
- Sped up a full AWS pipeline run 6x, 500 to 85 seconds, by replacing managed agent-runtime stages with direct tool calls once benchmarks showed each made one call and stopped.
- Quadrupled the insights automated reports surface, 13% to 52-59% on unseen datasets, by having an LLM agent choose the analyses while deterministic code computes every number.

MyStage Music Inc.

07/2025 - 05/2026

Founding AI/ML Engineer

Remote

- Delivered sub-50 ms search on FastAPI and Algolia with real-time Firestore sync, 200+ pytest tests and Logfire tracing.
- Re-architected a 14-Cloud-Function backend into one checkpointed LangGraph agent in Python on GCP Cloud Run, cutting production service dependencies 64%.
- Scaled ingestion to 70,000+ records a day from 650+ venues with a Playwright pipeline, transactional locking and Gemini entity resolution that raised search-dataset accuracy 25%.

EdPlus

09/2023 - 05/2025

Software Engineer

Phoenix, AZ

- Led a multi-tenant RAG assistant, React to retrieval layer, used by 1,000+ faculty to build courses for 60,000+ students.
- Raised engagement 35% and reduced bounce 20% with React and Material UI tools for the assessment platform: bulk import, cross-bank question reuse and a diff view before republishing.
- Isolated each college's data at the retrieval layer, so no tenant's material can surface in another's and onboarding became a config change, not a deployment.

Knowledge Exchange for Resilience, Arizona State University

06/2024 - 08/2024

Data Research Aide

Phoenix, AZ

- Built a FastAPI and pgvector recommender reaching 85% top-k precision for collaborator matching, fed by an ETL ingesting 10,000+ profiles a day, plus 20+ REST APIs on .NET 8.
- Lowered API latency 90% with Redis caching and SQL rewrites, and raised dataset accuracy to 95% with PostgreSQL constraints.

Zeus Learning

01/2022 - 07/2023

Software Engineer

Mumbai, India

- Built a Redis-backed desk-demand forecasting service used in 300+ Fortune 500 offices, with reported occupancy up 30%.
- Cut deploy time 70% and production incidents 40% by containerizing the CI/CD release pipeline and adding SonarQube gates.
- Migrated a C# .NET monolith to Dockerized Kubernetes microservices, reducing infrastructure cost 20% and footprint 35%.

PROJECTS

SRP Electric MCP Server | [GitHub](#)

12/2025 - 01/2026

- Reverse-engineered an undocumented utility portal into a read-only TypeScript MCP server with Zod-validated tool schemas, normalized meter data and typed errors an agent can act on.

AiJockey - AI DJ Pipeline | [GitHub](#)

2025 - Present

- Built an end-to-end AI DJ in PyTorch and FastAPI: stem separation, an LLM transition planner, 25+ DSP transitions and LUFS mastering, ported off CUDA to an AMD MI300X.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C#

Frameworks: FastAPI, NestJS, Node.js, .NET, React, Vue/Nuxt, Next.js, LangGraph, PyTorch

AI & Data: RAG, LLM evaluation, MCP, AWS Bedrock, PostgreSQL, pgvector, FAISS, Neo4j, Redis, DuckDB, ETL pipelines

Cloud & DevOps: AWS (Step Functions, Lambda, S3, CDK), GCP Cloud Run, Docker, Kubernetes, CI/CD

EDUCATION

Arizona State University (ASU)

08/2023 - 05/2025

Master of Science, Computer Science

Tempe, AZ, USA

- GPA: 4.0

Dhirubhai Ambani Institute of Information and Communication Technology

08/2018 - 05/2022

Bachelor of Technology, Information and Communication Technology

India
