PROFESSIONAL EXPERIENCE

EdPlus, Arizona State University **06/2026 - Present**
AI Software Engineer *Phoenix, AZ*

- Validated 25 statistical tests and six causal estimators against SciPy and statsmodels; scored 68% on a 100-question StatQA sample, against GPT-4o's best reported 64.83%.
- Designed a controlled experiment showing model choice moves text-classification F1 33x more than pipeline design (0.230 vs 0.007), redirecting the team's roadmap toward reliability.
- Quadrupled the headline findings automated reports recover, 13% to 52–59% on held-out datasets, by letting an LLM choose analyses while code computes every number.
- Designed conformal accept and abstain thresholds that bound the error rate on accepted labels, giving every label a calibrated 0–100 confidence.

MyStage Music Inc. **03/2025 - 06/2026**
Founding AI/ML Engineer *Remote*

- Lifted dataset accuracy 25% with Gemini entity resolution, scored by LLM-as-judge, over 70,000+ records a day.

EdPlus, Arizona State University **09/2023 - 05/2025**
Software Engineer *Phoenix, AZ*

- Gated every prompt release on Prompt Flow LLM-as-judge evals for groundedness, relevance and coherence.

Arizona State University **08/2024 - 05/2025**
Student Researcher *Phoenix, AZ*

- Built a PyTorch and Diffusers benchmark for text-to-video models that scores physical plausibility separately from visual quality, holding seed, resolution and sampler fixed.
- Found visual quality barely predicts physical plausibility: the top model by human preference ranked last on causal consistency.

Knowledge Exchange for Resilience, Arizona State University **06/2024 - 08/2024**
Data Research Aide *Phoenix, AZ*

- Built a FastAPI and pgvector collaborator recommender achieving 85% top-k precision in evaluation.
- Lifted search relevance 15% over baseline with an n-gram ranking model over cleaned researcher-profile text.

Zeus Learning **01/2022 - 07/2023**
Software Engineer *Mumbai, India*

- Built a desk-demand forecasting model on historical occupancy by floor, day and team, served from Redis to 300+ offices; reported occupancy improved 30%.

PROJECTS

Soccer Result Prediction **10/2023 - 12/2023**

- Lifted match-outcome accuracy 12% by ensembling LSTM and XGBoost over rolling-window form features, with a time-based split that prevents leakage.

TECHNICAL SKILLS

Languages & Libraries: Python, SQL, pandas, NumPy, scikit-learn, XGBoost, SciPy, statsmodels, PyTorch, TensorFlow
Statistics: Hypothesis testing, A/B testing, experiment design, causal inference, regression, calibration, conformal prediction
Machine Learning: Classification, NLP, embeddings, clustering, recommendation, time series, forecasting, deep learning
Evaluation & Visualization: Model evaluation, log loss, F1, precision@k, inter-rater agreement, LLM evals, Plotly, D3, Vega-Lite

EDUCATION

Arizona State University (ASU) **08/2023 - 05/2025**
M.S., Computer Science | GPA: 4.0 *Tempe, AZ*

Dhirubhai Ambani Institute of Information and Communication Technology **08/2018 - 05/2022**
B.Tech., Information and Communication Technology *Gandhinagar, India*
