PROFESSIONAL EXPERIENCE

EdPlus <i>AI Software Engineer</i>	05/2026 - Present Phoenix, AZ
- Own the architecture, roadmap and delivery of a 12-agent AI analytics platform on AWS Bedrock and Step Functions that turns any structured dataset into cited, verified answers; TypeScript, NestJS, Nuxt. - Cut wrong answers 85% on 164 published benchmark figures by reading every answer back in plain words and verifying it against the question before display. - Extended analysis to statistical and causal questions with 25 tests and six causal estimators validated against scipy and statsmodels, scoring 68% on StatQA versus GPT-4o's best reported 64.83%. - Quadrupled the insights automated reports surface, 13% to 52–59% on unseen datasets, by having an LLM agent choose the analyses while deterministic code computes every number. - Showed model choice moves accuracy 33x more than pipeline design across models costing \$5–\$89 per 100k rows, redirecting the team's recommendation from accuracy to reliability. - Benchmarked the platform against Claude Opus 5.5 working blind on public survey data, cutting wrong charts 93% with judge-free rule checks and an expert-calibrated LLM judge.	
MyStage Music Inc. <i>Founding AI/ML Engineer</i>	07/2025 - 05/2026 Remote
- Re-architected a 14-Cloud-Function backend into one checkpointed LangGraph agent in Python on GCP Cloud Run, cutting production service dependencies 64%. - Scaled ingestion to 70,000+ records a day from 650+ venues with a Playwright pipeline, transactional locking and Gemini entity resolution that raised search-dataset accuracy 25%.	
EdPlus <i>Software Engineer</i>	09/2023 - 05/2025 Phoenix, AZ
- Built a Prompt Flow eval harness scoring groundedness, relevance and coherence to gate every prompt change on results. - Led a multi-tenant RAG assistant, React to retrieval layer, used by 1,000+ faculty to build courses for 60,000+ students. - Added hybrid keyword and vector search so exact course codes resolve correctly where embeddings alone blur them together. - Cut transcript analysis 16x, four hours to 15 minutes, with a Neo4j knowledge graph queried by validated LLM-written Cypher.	
Arizona State University <i>Student Researcher</i>	08/2024 - 05/2025 Phoenix, AZ
- Built a PyTorch and Diffusers benchmark for text-to-video models that scores physical plausibility separately from visual quality, holding seed, resolution and sampler fixed. - Found visual quality barely predicts physical plausibility: the top model by human preference ranked last on causal consistency. - Designed a frame-level rubric for rigid-body motion, gravity, momentum and occlusion, and measured inter-rater agreement before trusting any aggregate score.	
Knowledge Exchange for Resilience, Arizona State University <i>Data Research Aide</i>	06/2024 - 08/2024 Phoenix, AZ
- Cut p95 retrieval latency 60% at 95% recall with a hybrid FAISS and Neo4j search layer. - Built a FastAPI and pgvector recommender reaching 85% top-k precision for collaborator matching, fed by an ETL ingesting 10,000+ profiles a day, plus 20+ REST APIs on .NET 8.	
Zeus Learning <i>Software Engineer</i>	01/2022 - 07/2023 Mumbai, India
Built a Redis-backed desk-demand forecasting service used in 300+ Fortune 500 offices, with reported occupancy up 30%.	

PROJECTS

AiJockey – AI DJ Pipeline GitHub	2025 - Present
- Built an end-to-end AI DJ in PyTorch and FastAPI: stem separation, an LLM transition planner, 25+ DSP transitions and LUFS mastering, ported off CUDA to an AMD MI300X. - Trained a MERT-95M reward head predicting four-axis audio aesthetics (final MSE 0.127) so the segment picker scores candidates without running full inference per render.	

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C#

Frameworks: FastAPI, NestJS, Node.js, .NET, React, Vue/Nuxt, Next.js, LangGraph, PyTorch

AI & Data: RAG, LLM evaluation, MCP, AWS Bedrock, PostgreSQL, pgvector, FAISS, Neo4j, Redis, DuckDB, ETL pipelines

Cloud & DevOps: AWS (Step Functions, Lambda, S3, CDK), GCP Cloud Run, Docker, Kubernetes, CI/CD

EDUCATION

Arizona State University (ASU) <i>Master of Science, Computer Science</i>	08/2023 - 05/2025 Tempe, AZ, USA
GPA: 4.0	
Dhirubhai Ambani Institute of Information and Communication Technology <i>Bachelor of Technology, Information and Communication Technology</i>	08/2018 - 05/2022 India
